Huge Hoarding Case.....200 Dogs

There were cages stacked four high up to the ceiling, crammed full of dogs throughout the home. It was one of the largest and most amazing hoarding cases we have seen. Racing to keep the dogs from going to a kill shelter, we worked with our partners in South Texas to arrange transport for the dogs all over the nation. Many of them came to Abilene for medical work. After their arrival, our kennels were super full with over 110 animals at our Center. Within days, they were on their way north to new homes, and more animals were arriving.
