

FALL 2020

Rescue the Animals, SPCA

82 Dogs in Hoarding Cases!

Hoarding Cases, Medical Surge....Fundraising Disaster Looms!

Another fundraising disaster! **We are now cancelling our 5K Race for this fall.** It is our third largest fundraiser of the year and joins the Dachshund Races in the list of fundraising events that have been cancelled.

Now our only source of income is what we receive in response to our mailings like this one!

The good news is that hundreds of animals left our Transport and Rehab Center in July and August despite continuing lockdowns in many states. One group had to send a transport from Georgia to Abilene to pick up the dogs. They then off-loaded the dogs in Tennessee to continue their trip to an undisclosed northeastern state that was banning traffic from Texas! Our transports sent animals to **Wisconsin, New Mexico, Illinois, Florida, New York, and another undisclosed state** in July and August.

We helped Abilene Animal Services save over 130 dogs and cats in one week August.

Saving Special Dogs

We have several partner groups that specialize in special needs dogs allowing us to move lots of senior dogs and snappy dogs to new homes this summer from pounds. Tiny Farah tried to bite everyone. At her foster home she became a lover!

Help us Save Migallo!

Migallo was in trouble at Abilene Animal Services. He was very sick, and no one knew what was wrong.

Dr. Allen Bolt found that much of his trouble was from a Thyroid problem. Of course, seriously infected ears, a skin infection, and starvation were not helping. After packing the dog's ears, Dr. Bolt started medications, and we began daily medicated baths. Migallo loves the baths, but we have a long road ahead.

Since we have cancelled our 5K Race, we hope you will run to the post office and send us a check!

12 Chihuahuas Under Porch!

Help! Hoarding Cases Surging!
Fundraising Disaster Looms!

60+ Dogs at House in Woods!

Three recently dead puppies and the remains of several dead adult dogs in a shed indicated this was not going to be easy. Our team just kept finding more dogs everywhere out in the country near Dublin.

One of our partner groups had been working with a man in poor health for some time. They were feeding the dogs and trying to catch them, but they were wild with plenty of room to roam. The owner was in the hospital and not expected to return to his camper in the woods. We took as many dogs as we could catch and are continuing to work with our partners to round up more of them.

Just Down the Road

It was just a "little piece" down the road from the "big" hoarding case that we found more dogs in distress that our partners had arranged for us to pick up. Country living, at least for many dogs, is not all green grass and swimming in the pond!

PARVO Hoarding?

When Abilene Animal Services began picking up dogs from a local hoarder there was a problem. First, lots of puppies. Next, they were all breaking with PARVO. We rushed 14 puppies and 4 adults to Dr. Bolt, who began treatment. As the dogs stabilized, we found one of our partners to take them for further care. Only three of the puppies died (a major victory). A simple vaccination would have saved them all.

Failing Health and 12 Chihuahuas

A health care worker in an adjoining county finally convinced a lady her dogs needed new homes. The woman was headed to the hospital to have both legs amputated due to blood clots and heart problems and would probably not be coming home. We picked up 12 Chihuahuas and a cat. Most of the dogs were living under a porch and had horrible flea infestations.
