

What Would Our World Look Like Without Fur Ball Funding?

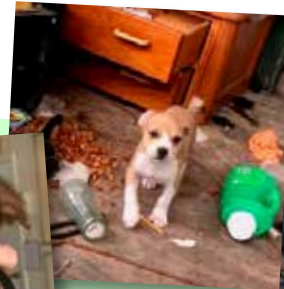

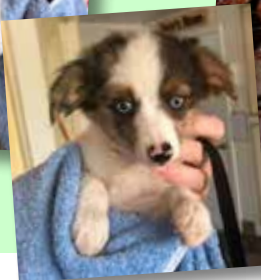

We saved hundreds of animals in 2020 in hoarding, neglect, and abuse cases. Rescuing them from terrible conditions.

Who would we have left behind in 2020 without our Fur Ball funding?

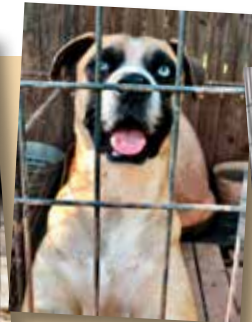

In early 2020, we saved over **50 starving little dogs with heartworms** (plus 8 were pregnant) in hoarding and abuse cases in Taylor County. At the same time we took 21 animals from Abilene Animal Services in just one week! Who would we have left behind?

Next we worked to save **89 dogs left in one house**, plus a mom who gave birth to 9 puppies in the dirt while she was chained! Who would we have left behind?

Late summer brought **82 dogs in more hoarding cases**. Many of these dogs needed special medical attention. Of course, we were still taking lots of other animals from all over the state. Who would we have left behind?

Boom! Late fall brought over **120 animals in one Abilene home and hoarding cases from Abilene, Corsicana, and Ballinger for a total of 168 animals!** When these cases happened our kennels were already full with nearly 100 animals in house! Who would we have left behind?
