

SPRING 2022

Rescue the Animals, SPCA

\$20,000 or \$0!

**Double or Nothing
Challenge Grant till May 31st!**

The Post Pandemic Panic is here! We are seeing record numbers of Abuse, Neglect, and Hoarding cases with calls coming in from counties all over Texas and even New Mexico. We have taken 109 from just 4 cases, and have received calls about hundreds of other animals in trouble, many of them **starving!**

Medical cases are up drastically breaking our budget in just the first two months of the year! Huge numbers of heartworm cases at several hundred dollars each are being followed by amputations, major surgeries of all kinds, mange, burns, and a wide variety of infections. Plus, folks are turning in or abandoning many of the animals they adopted during the lockdown.

We can't say no when we know we are the last chance for these animals!

We can earn an extra \$20,000 if you donate today!

But, it's all or nothing. We must match the entire \$20,000 by the deadline or we get nothing! Your donation is needed today!

Double your donation and save twice as many lives!

109 in Abuse, Neglect, & Hoarding Cases!

43 Seized in Roswell, New Mexico "We just seized 43 dogs and cats and have nowhere to put them. Can you help?" That very night these animals were sleeping safely in Abilene, Texas! Despite having all our kennels filled with 100 plus animals, we arranged emergency off-site housing and began medical evaluations and care. Our partners out of state started calling almost immediately to "reserve" the ones they wanted.

26 then 35 Dogs in Hoarding Cases in Abilene

Abilene Animal Services seized 26 dogs and puppies, some of them starving, but had no room for them. We quickly made space, and new puppies started popping out! One mom gave birth at our place, and others had babies during their ride and after they reached our partners in Wisconsin. So far the total is over 35 dogs and more to come! **We are the only ones who can take these emergency cases and rapidly move them to new homes!**

Breeder Neglect in Midland

Porsche and her Shar Pei puppies were living under a falling-down shed owned by a breeder!
